Veteran Owned Company

Proudly Made In The USA

The Appeal Of *More than A Memorial* Markers

Our products are 100% made in the USA, from concept to completion. Made from a combination of aircraft grade 6061 Aluminum and Stainless Steel, our products will withstand the elements.

The marker itself is Aluminum, powder coated and laser engraved with your loved ones information. A variety of templates are available to meet your needs with full custom offerings.

Added benefits if utilized as a temporary marker is that the engraved portion can be displayed in a variety of manners. The marker can be removed from the mounting plate and displayed as a wall mounted memorial. With threaded holes located in the center and at 16" end to end, which is the standard for wall studs in homes. Making it perfect to be displayed inside or outside.

Mounting Brackets

The Mounting brackets are completely made from Stainless Steel. The mounting surface is CNC cut and bent, incorporating a small platform that allows you to display items that are significant to you and your loved one.

Installation is quick and easy by tapping the mounting bracket directly above the mounting posts, which are also made from stainless steel.

Accessories are available to attach to the memorial including American Flags with mounts and Flower arrangement holders.
